

# List of Figures

*All photographs, diagrams, images and sketches by author, unless indicated otherwise*

## 01 \_ Introduction

- fig. 01 **0.4 % of population incarcerated**  
(Statistics from Department of Correctional Services: Annual Report. 2010)
- fig. 02 **39 % reconviction rate**  
(Statistics from Department of Correctional Services: Annual Report. 2010)
- fig. 03 **35 % overcrowded prisons**  
(Statistics from Department of Correctional Services: Annual Report. 2010)
- fig. 04 **Social re-integration programme**  
(Programme according to the Department of Correctional Services: Annual Report. 2010; p.81-84)
- fig. 05 **Programming the 'in-between'**
- fig. 06 **Department of Correctional Services logo**  
([http://www.dcs.gov.za/homepage\\_paia/Images/main/DCSLogo.jpg](http://www.dcs.gov.za/homepage_paia/Images/main/DCSLogo.jpg))
- fig. 07 **National Treasury logo**  
(<http://www.humanjobs.co.za/uploads/humancommunications/clients/458/logo4586440.jpg>)
- fig. 08 **Department of Public Works logo**  
(<http://www.propertycharter.co.za/logos/publicworks.jpg>)
- fig. 09 **Site location**
- fig. 10 **Users altering spaces according to ever-changing social needs**
- fig. 11 **Pretoria West \_ 1882 - 1922**
- fig. 12 **Pretoria West \_ 1922 - 2011**
- fig. 13 **Pretoria West \_ 2011**
- fig. 14 **Aerial view of Pretoria illustrating Pretoria West in context**
- fig. 15 **Urban gentrification of Pretoria West in hierarchal diagram**
- fig. 16 **Pretoria West \_ Industrial (developed block North of site)**
- fig. 17 **Sustainable industrial environment by strategically balancing economic, social, and environmental needs**

## 02 \_ Literature Review

- fig. 18 **N.J. Habraken, the comparison between an infill package in a support structure and a car on the highway, 1965.**  
([http://www.architectuurgeschiedenis.nl/projecten/images/p9\\_4\\_kl.gif](http://www.architectuurgeschiedenis.nl/projecten/images/p9_4_kl.gif))
- fig. 19 **Shugakuin Imperial Villa: modular dwelling for the Japanese Emperor, 17th Century.**  
(<http://www.travelinstyle.com/japan/KyotoImperial.htm>)
- fig. 20 **Siena, Italy. Developed according to Piecemal growth**  
(<http://www.jpfolks.com/forum/ubbthreads.php>)
- fig. 21 **Panopticon, 1790. Jeremy Bentham**  
(<http://www.rijksgebouwendienst.nl/monumentenregister/detail.asp?rgdnr=301525>)
- fig. 22 **Museum of the Moving Image Hospitality Pavilion**  
([http://www.london-se1.co.uk/news/imageuploads/1246956360\\_62.49.27.213.jpg](http://www.london-se1.co.uk/news/imageuploads/1246956360_62.49.27.213.jpg))
- fig. 23 **Museum of the Moving Image Hospitality Pavilion (Assembly procedure)**  
(Kronenburg, Robert. 2000. Portable architecture: p.69)

### 03 \_ Mapping & Contextual Analysis

---

- fig. 24 Geographical location of site
- fig. 25 Image from Rebecca bridge (overlooking West)
- fig. 26 Mapping as design generator
- fig. 27 Diagrammatic illustration of the Gauteng Metro rail infrastructure  
Adapted by author from ([http://www.metrorail.co.za/maps/GAU\\_RailMap.jpg](http://www.metrorail.co.za/maps/GAU_RailMap.jpg))
- fig. 28 Origin of rail commuters and densification of train stations throughout Pretoria
- fig. 29 Usage of stations throughout the day
- fig. 30 Certain places and buildings citizens relate to within Pretoria
- fig. 31 Rebecca station with adjacent built and natural context
- fig. 32 Elementary layered components forming existing industrial environment
- fig. 33 Combined layers illustrating current urban fabric
- fig. 34 Monotonous environment of Pretoria West due to escalating economic needs and urban gentrification
- fig. 35 Transportation connections around Rebecca station
- fig. 36 Birds eye view of Pretoria West (southwest - northwest)
- fig. 37 Birds eye view of Pretoria West (northwest - northeast)
- fig. 38 Birds eye view of Pretoria West (northeast - eastwest)
- fig. 39 Typical industrial textures found in Pretoria West
- fig. 40 Typical east-west streetscape (Mitchell street)  
(Initially submitted by author's urban framework group 2010) -Bertus van Sittert-
- fig. 41 Typical north-south streetscape (Rosetta street)  
(Initially submitted by author's urban framework group 2010) -Bertus van Sittert-
- fig. 42 View from Rebecca bridge (overlooking East)  
(Initially submitted by author's urban framework group 2010) -Bertus van Sittert-

### 04 \_ Context Development & Programme

---

- fig. 43 Aerial view of site and adjacent context
- fig. 44 Perspective illustrating site context
- fig. 45 Dilapidated warehouses currently on site (looking West)
- fig. 46 Assessing the built environment of Pretoria West (SBAT)
- fig. 47 Social needs
- fig. 48 Environmental needs
- fig. 49 Economic needs
- fig. 50 Proposed residential development
- fig. 51 Diagrammatic section illustrating proposed residential development in Pretoria West
- fig. 52 Revitalising strategy
- fig. 53 Intervention acting as a revitalising process
- fig. 54 Waste accumulated
- fig. 55 Production process of the 'halfway house'
- fig. 56 Giving back to society
- fig. 57 Site development concept and production process
- fig. 58 Production concept as recycling process

- fig. 59 Site development proposal
- fig. 60 Newspaper extract supporting production programme  
(Anon. 2011. News 24: Beeld: 5, July 28.)
- fig. 61 Model by author illustrating the reassembly of recyclable waste into a new useful product
- fig. 62 Production programme logo
- fig. 63 Housing programme log
- fig. 64 'Flexible' programme logo

## 05 \_ Precedents

---

- fig. 65 Rail track leading to Rebecca station
- fig. 66 Extention to the Centre Georges Pompidou, Paris (1959), by Yona Friedman  
(Ley, S. & Richter, M. 2008. *Megastructure Reloaded*: p.118)
- fig. 67 Ville Spatiale , Paris (1959), by Yona Friedman  
([http://1.bp.blogspot.com/\\_T2oNM-298EQ/THOOn3hgF3I/AAAAAAAAABg/nP-52ipuln/s1600/3.jpg](http://1.bp.blogspot.com/_T2oNM-298EQ/THOOn3hgF3I/AAAAAAAAABg/nP-52ipuln/s1600/3.jpg))
- fig. 68 Parti diagram of 'Ville Spatiale'
- fig. 69 Series of diagrams illustrating concept for 'La ville Spatiale'  
(Ley, S. & Richter, M. 2008. *Megastructure Reloaded*. London: Laurence King. McGraw-Hill. New York: p.123)
- fig. 70 Parti diagram of 'Potteries Thinkbelt Project'
- fig. 71 Perspective from railway module  
(<http://www.cityofsound.com/photos/uncategorized/2008/09/16/thinkbelt.jpg>)
- fig. 72 Perspective of 'Potteries Thinkbelt Project'  
([http://i261.photobucket.com/albums/ii58/pmiyada/64\\_POT\\_prp4\\_cha\\_64.jpg?t=1242059902](http://i261.photobucket.com/albums/ii58/pmiyada/64_POT_prp4_cha_64.jpg?t=1242059902))
- fig. 73 Artist's illustration of the High Line public park  
([http://4.bp.blogspot.com/\\_auXxyM3z6IA/SecrJvOUGDI/AAAAAAAAAgg/-X6rb6FcbKc/s400/highline\\_pd02.jpg](http://4.bp.blogspot.com/_auXxyM3z6IA/SecrJvOUGDI/AAAAAAAAAgg/-X6rb6FcbKc/s400/highline_pd02.jpg))
- fig. 74 Parti diagram of NYC High Line Park
- fig. 75 NYC High Line Park  
([http://i.telegraph.co.uk/multimedia/archive/01419/HighLine-9\\_1419978i.jpg](http://i.telegraph.co.uk/multimedia/archive/01419/HighLine-9_1419978i.jpg))
- fig. 76 Perspective of pedestrian walk route  
(<http://www.thedailygreen.com/cm/thedailygreen/images/zP/the-high-line-lg.jpg>)
- fig. 77 Parti diagram of Micro Compact Village
- fig. 78 Design drawings of modular housing unit  
(Kronenburg, Robert. 2008. *Portable architecture. Design and Technology*: p.112)
- fig. 79 Concept model of 'Micro Compact Village'  
(<http://inhabitat.com/files/microcompact.jpg>)
- fig. 80 Crane transporting 'Micro Compact Module'  
(Siegal, Jennifer. 2008. *More Mobile: Portable Architecture for Today*: p.80)
- fig. 81 Clustered modules achieving 'The Compact Village'  
(Siegal, Jennifer. 2008. *More Mobile: Portable Architecture for Today*: p.81)

## 06 \_ Concept development

---

- fig. 82 Dumping containers adjacent to site
- fig. 83 Aerial view of site illustrating location of redundant recyclable materials
- fig. 84 328 Dumping containers available
- fig. 85 1600 Rhodesian teak sleepers available
- fig. 86 4200 m Rail tracks available
- fig. 87 4515 m<sup>2</sup> Steel sheeting from existing warehouses available
- fig. 88 1300 m Ductile iron water pipes available (currently stored in dilapidated warehouses)
- fig. 89 The erection sequence of a 'Terrapin' structure  
(Terrapin bungalow of 1948, Archigram no. 3, August 1963).
- fig. 90 Concept sketch based on theoretical principles (southern elevation)
- fig. 91 Concept model '01' illustrating intervention constructed over existing warehouses' footprint
- fig. 92 Axonometric drawing illustrating housing module assembly
- fig. 93 Hexagonal housing module constructed from three dumping containers
- fig. 94 Concept model '02' illustrating proposed living environment cantilevering over existing warehouse footprint
- fig. 95 Northern elevation illustrating working environment at ground level, and residential environment at upper levels
- fig. 96 Section A-A (housing concept)
- fig. 97 Phase 1: structural columns & service core
- fig. 98 Phase 2: vertical accessibility & structural beams (rail tracks)
- fig. 99 Phase 3: high tensile steel cables & hexagonal housing modules (east & west)
- fig. 100 Phase 4: Floor programmes
- fig. 101 Phase 5: Structure capable of various arrangements
- fig. 102 Ideology of a '*bee-hive-structure*'
- fig. 103 Perspective view between existing warehouses (looking East)
- fig. 104 'Flexible' social spaces determined by modular configuration
- fig. 105 'Flexible' spaces determined by lightweight partitioning
- fig. 106 Hexagonal form vs. conventional cubical form
- fig. 107 Chronological phases of a recycling / production process
- fig. 108 Recycling logo
- fig. 109 Each warehouse representing a sequential phase in the recycling / production process.
- fig. 110 Concept model '03' illustrating perspective view from new pedestrian walk route (looking East)
- fig. 111 Concept model '03' illustrating perspective view of southern facade (principal facade)
- fig. 112 Disorientated meandering process
- fig. 113 Orientated linear process
- fig. 114 Southern elevation reading as a linear process from East to West
- fig. 115 Summary of concept development process
- fig. 116 Most influential concept sketch illustrating the integration of the working and living environment

## 07 \_ Design & Technical Development

---

- fig. 117 Perspective view of southern facade
- fig. 118 New axis over existing warehouses
- fig. 119 Axonometric of site development (view from northwest)
- fig. 120 Metro-Rail employee helping author to cut a rail track
- fig. 121 Axonometric of primary structure (view from northwest)
- fig. 122 Stair location
- fig. 123 Axonometric illustrating circulation routes throughout intervention (view from northwest)
- fig. 124 Heat extraction concept
- fig. 125 Axonometric of services throughout intervention (view from northwest)
- fig. 126 housing modules & structure
- fig. 127 recycled steel sheeting from existing warehouses (view from northwest)

## 08 \_ Drawings

---

- fig. 128 Axonometric of proposed intervention (view from southwest)
- fig. 129 Axonometric section through access route
- fig. 130 Site Development Plan
- fig. 131 Ground floor structure & movement
- fig. 132 First floor structure & movement
- fig. 133 Roof plan
- fig. 134 Cross - Section
- fig. 135 Axonometric Detailed Section
- fig. 136 Elevation \_ North (from Carl street)
- fig. 137 Elevation \_ South (from Courtyard)
- fig. 138 Elevation \_ South (from Rebecca station)
- fig. 139 Elevation \_ North (from Courtyard)
- fig. 140 Section (through access route)

### \_ Physical Model

- fig. 141 Southern facade from courtyard
- fig. 142 Perspective of central courtyard
- fig. 143 North-western aerial view
- fig. 144 Complete site proposal (both students)
